PROFILE

- Multimedia trainer with 11 years of experience in teaching a variety of clientele
- Experienced creator in graphic design, digital illustration, and currently in the process of transitioning to the field of UX Design

WORK EXPERIENCE

Project Manager, CyberCap
October 2011-present

Project management :

- Management of multimedia projects with clients (Ubisoft, École de Technologie Supérieure, Arrondissement de Verdun, National Bank, etc.)
- Analysis of customer needs
- Creation of contracts and production schedules
- Project production (video editing, web design, and graphics) from planning to delivery with participants in the 18-25 program

Education :

- Classroom management and video shoot supervision
- Conducting workshops on various multimedia production software and creating the related course documents
- Daily technical support on the realization of multimedia projects carried out by the participants
- Daily support to the social and professional integration journey of the participants

Other tasks :

- Various graphic design projects (leaflets, bus shelter posters, social media visuals, promotional posters) to promote the 18-25 program
- Member of the 18-25 program redesign committee (change management utilising the design thinking approach)

Freelance Graphic Designer
2012-present

- Working with clients, e.g. briefing and advising them with regard to style, format, and production
- Developing concepts, graphics, and layouts for product illustrations, company logos, and websites
- Determining size and arrangement of copy and illustrative material, as well as font style and size
- Preparing rough drafts of material and reviewing final layouts

Teaching Assistant, Concordia University
September 2009-May 2010

- Preparing and teaching a 3-hour weekly lab for the Advanced Multimedia course
- Working in collaboration with the professor in the elaboration of assignments
- Following and advising students in the development of their projects
- Creating teaching material, including handouts and in-class exercises
